COVID-19 Postponement of Season

23/03/2020

Dear LTUFC Community,

The VAFA issued an update on 23/03/20 regarding the COVID-19 outbreak. In brief, our season has been delayed until Sunday 31st May 2020 at the earliest. The fixture will be revised accordingly and amended when our season resumes.

The health and safety of our players, volunteers, officials and their families are our main priority. With that in mind, the LTUFC Committee in conjunction with the VAFA recommendations have decided to immediately suspend all club training, practice matches and events until further notice. This includes all upcoming events: specifically, the Club Information Night, Club Jumper Presentation, Practice Matches and our Pre-Season Camp.

Although disappointing given all the hard work everyone has put in over the pre-season, this is in the best interest of everyone at the Club. We will re-consider all the above events once we have received greater clarity from both the VAFA and our University.

This will be an unsettling time for some of us where we may feel anxious and isolated, so please take a minute to reach out to a mate that may need some support. I also encourage us all to stay connected with each other via messages/calls/Facebook groups.

If you require any support from the Club, please feel free to reach out to me on 0409 948 600.

A further update will be provided regarding training programs from our coaching group through our Club page.

Stay well and look after each other.

Samantha Greene
President
La Trobe University Football Club
